Looking toward the future . . .

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.

The End

"I shall pass through this world but once. If therefore, there be any kindness I can show or any good thing I can do, let me do it now . . . For I shall not pass this way again."

Etienne DeGrellet

I would like to thank everyone for their help and support in putting out this yearbook--Dyan Dyttmer (assistant editor), Lori Bushman (business manager), the AQUILA staff, Mr. Gerke, the photographers, all patrons, Sid (our yearbook representative), the Oakland University Yearbook Workshop, and especially you because without you this book would be nonexistant.

Sincerely,
Diane Key,
Editor
